

Lujain Okour

Data Science & Artificial Intelligence Student | Machine Learning | Software Development

Amman, Jordan | +962 779 994 475 | okourlujain@gmail.com

LinkedIn: lujain okour | GitHub: lujain okour

PROFESSIONAL SUMMARY

Data Science and Artificial Intelligence undergraduate with practical experience in machine learning, deep learning, natural language processing, and software development. Currently developing programming and application-building skills through Orange Coding Academy, alongside hands-on data science experience at DStarix Techno. Strong communicator and team leader with experience in technical projects, competitions, event coordination, and AI problem-solving.

EDUCATION

- B.Sc. in Data Science & Artificial Intelligence - Irbid National University | Expected Graduation: 2026/2027
- Intensive Software Development Programming - School 42 Irbid

PROFESSIONAL EXPERIENCE

Software Development Trainee

2026 - Present

Orange Coding Academy - Orange Jordan

- Currently undertaking intensive programming training focused on software development, problem-solving, and building practical technical skills.
- Applying programming concepts through hands-on learning, collaborative work, and project-based development.

Data Science & Machine Learning Intern

June 2026 - Present

DStarix Techno Pvt. Ltd. (Remote)

- Contributing to machine learning workflows and data science initiatives within a remote, collaborative environment.

SELECTED TECHNICAL PROJECTS

Urban Pulse AI V2 - Traffic Prediction System

2026

Machine Learning Project

- Developed and optimized an AI-driven predictive system using XGBoost and lag features to analyze and forecast traffic patterns.
- Successfully defended the project with a perfect academic evaluation score of 35/35; achieved an R^2 score of 0.98 through feature engineering.

NLP Question Answering System

2026

Deep Learning Project

- Co-developed a question-answering system using a fine-tuned DistilBERT model trained on the SQuAD dataset.
- Implemented evaluation scripts for Exact Match and F1 metrics and deployed the solution through a dedicated project website.

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Secretary & Master of Ceremonies

2025 - 2026

IEEE-INU Student Branch

- Coordinated internal communications, documentation, team activities, and event workflows.
- Served as MC and key organizer for IEEE MEGAMEET in May 2026, supporting agenda execution, timelines, and post-event reporting.

Founder & Team Lead - CitySync

2026 - Present

Competitive Technical Team

- Founded and lead a technical team participating in data science, AI, and innovation challenges.

Competition Ambassador

2026

AI Modelling Hackathon 2.0 - Irbid National University

- Represented INU, promoted participation, guided student teams, and supported event communication and organization.

ACHIEVEMENTS

- AI Modelling Hackathon 2.0 Participant: Worked on dialect identification, speech emotion recognition, power demand prediction, CPU-efficient computer vision, and 3D RF ultrasound analysis as part of team LORW AI_INU.
- 4th Place Nationwide: Creativity & Communication Skills Competition.

TECHNICAL & PROFESSIONAL SKILLS

AI & Data Science: Machine Learning, Deep Learning, NLP, Computer Vision, XGBoost, LightGBM

Programming & Libraries: Python, TensorFlow, Scikit-learn, Pandas, NumPy

Tools: Git, Notion, Canva, Digital Asset Design, Video Editing

Professional: Team Leadership, Strategic Planning, Problem-Solving, Communication, Adaptability

LANGUAGES

- Arabic: Native
- English: Very Good
